EXPERTISE

Regulation and Government | Administrative Law | Data Centers

BIO

Idan Arnon represents leading entities operating in the Israeli market, both local and international, in the fields of regulation and administrative law, including in legislative and regulatory proceedings, price control proceedings, representation before government authorities, ministries, Knesset committees and governmental and public committees, as well as in petitions involving regulatory matters before the High Court of Justice and administrative courts. He is also involved in activities for the protection of individual rights.

Specializing in the field of foreign direct investment regulation in Israel, Idan has published professional articles on this matter.

Idan joined the firm in 2019, after completing his internship at the National Public Defender's Office in the field of retrials, alongside the National Public Defender and his deputy.

Education

2018 Tel Aviv University | LL.B. (Dean's List)
