EXPERTISE

Planning and Zoning | **Real Estate**

BIO

Shoam Keren is a specialist in planning and zoning within the firm's Real Estate Department, offering extensive expertise in advising and representing both governmental and private entities in infrastructure projects. Her focus lies in navigating the legal intricacies of obtaining approvals for diverse master plans, at the local, regional, and national levels. Her broad experience encompasses litigation and dispute resolution across all facets of her specialized fields.

Well-versed in local licensing procedures and the complexities of Israeli zoning authorities, at every level, Shoam excels in representing various clients during objection proceedings – an integral part of the zoning process. Her specialization extends to providing legal representation for infrastructure companies and governmental entities in proceedings related to land expropriation and compensation. She also adeptly represents clients in various proceedings before the Israel Land Authority. Shoam is recognized by The Legal 500 for her expertise in planning and zoning, highlighting her strong reputation for advising on complex infrastructure projects and representing clients in high-level regulatory and litigation proceedings.

Having gained a decade of experience as the head of the Planning and Construction and Administrative practice group at Charcon, Ben-Ami, Asher & Co. & Neeman, Keinan & Co., Shoam brings a wealth of knowledge to her role at our firm, which she joined in 2017.

RECOGNITION

LEGAL500

'I had the pleasure of working with Shoam Keren. She is extremely talented, experienced and creative in solving complicated legal problems. Shoam was very dedicated to the case, and had innovative ideas on how to manage the situation when the facts were against us.'

'Shoam Keren finds unique solutions that assist in the efficient execution of the project. She advises the legal team from her unique POV, which takes in a broad legal, planning and economic perspective, in order to optimize the project.'
