EXPERTISE

High-Tech | Emerging Technologies and AI

BIO

Betty joined the Advanced Technologies, Fintech, and Artificial Intelligence department of the firm in 2025. Her work focuses on providing legal guidance to companies in various technological fields, including regulatory consulting, commercial agreements, and related corporate matters.

Before joining the firm, Betty completed a summer internship in the high-tech department of the law firm GSK Stockmann in Berlin. Betty graduated with an LL.B. (magna cum laude) at the University of Haifa. During her studies, she served as a research assistant for leading professors in the fields of artificial intelligence and regulation, smart transportation, and online dispute resolution, and as a teaching assistant in public law. She also participated in the Law, Technology, and Cyber Clinic at the University of Haifa and received the Outstanding Clinical Student Award. Betty was a senior editor of the legal journal Din UDvarim, and led a team at HaLev BeMishpat non-profit organization for rights utilization.

Betty is a native speaker of Hebrew, English, and Russian.
